## NATURAL RISKS AND CLIMATE CHANGE IN MOUNTAIN AREAS

---

20 & 21 OCTOBER 2020

SORIA (SPAIN)

[WWW.MONTCLIMA.EU](http://WWW.MONTCLIMA.EU)

PROJECT COFINANCED BY THE  
EUROPEAN REGIONAL  
DEVELOPMENT FUND (ERDF)

# OBJECTIVE

---

This transnational seminar is focused on defining the link between the risks of drought, floods, erosion & forest fires in the SUDOE mountains, as well as the impact of climate change on these four risks.

The progresses of the MONTCLIMA project will be presented in order to improve governance & natural risks management through transnational cooperation and the development of a risk management and prevention common strategy.
